

(Flier Description)

What is a Support Service Provider?

A Support Service Provider, or SSP, is a specially trained individual who provides access to the community for people who are deafblind. This allows the person who is deafblind to make decisions for themselves based on the visual, environmental, and social information communicated by the SSP.

What is the SSP Pilot Project?

The goal of the SSP Pilot Project is to increase the availability of trained SSPs in Virginia, and to increase access to SSP services for consumers who are deafblind in Virginia. This grant project began in January 2023 and will end in December 2024, unless other funding is found. It is a collaboration between the Virginia Department for the Deaf and Hard of Hearing, the Department for the Blind and Vision Impaired, and Reynolds Community College. The grant is provided by the Virginia Board for People with Disabilities.

Interested in being an SSP Trainee Participant?

The SSP Pilot Project is offering training at no cost to up to 25 individuals interested in working with people who have combined hearing and vision loss. Screened SSPs who complete training will have the opportunity to provide paid support service hours to Deafblind Participants during the grant period.

Potential SSP Participants must:

- Be a Virginia resident at least 18 years old
- Hold a valid driver's license and insurance
- Be able to pass a background check
- Take a Sign Language proficiency screening (signing skills highly preferred but not required)
- Commit to complete a 7-week 2 credit online course (tuition paid by the grant) held 6/11/24-7/31/24
- Attend a MANDATORY 2-day in-person training session in Richmond July 19 & 20
